

Congregation Dor Tamid Vegetable Garden

This multi-purpose, special-needs accessible garden will offer opportunities to:

- grow food for the hungry;
- provide our children a source of experiential learning;
- provide our congregants with an outlet for that gardening bug you've been secretly nurturing;
- provide B'nai Mitzvah and Derech Tamid projects such as rain barrel construction and fence building; and
- provide a healthy outdoor activity that benefits our whole community.

But, not without your help. To get the garden growing, we are looking for donations of garden tools, soil and soil amendments, plants, trees, pavers, and other supplies.

If you would like to donate to the garden, please contact the Social Action Committee (socialaction@dortamid.com) to see what specific items are currently needed. Please do not purchase items until you have confirmed their need through Social Action.

Soon to be rolled out – Adopt-a-Weekend in the Garden Project.
